Forecast for Tuesday 28 Mar 2023

Weather: Becoming cloudy overnight with a few snow flurries by morning. Rain will extend northwards during the morning with snow above 500m, becoming more persistent and heavier in southwest of area. Low risk of blizzard conditions on tops of Perthshire hills. Snow then gradually turning to rain at all levels, fizzling out during evening.

Chance of cloud-free hill tops above 800m: 60% at first decreasing 30% during morning, mainly in south of area.

Low Cloud and visibility: Clouds initially well up the hills with good visibility beneath the cloud canopy. Clouds lowering during the morning, bases around 700m, especially in south and west of area with patches lower down in afternoon. Visibility deteriorating as precipitation moves in, becoming very poor or virtually nil in persistent sleet and snow. Visibility staying good in north.

Met Office Aberdeen Meteorologist's View
Walking conditions becoming more difficult on higher summits due to stronger winds, low temperatures, wintry precipitation and poorer visibility.

Forecast for Wednesday 29 Mar 2023
Weather: Mainly dry morning but rather cloudy, just a few brighter interludes over eastern Cairngorms and Aberdeenshire hills. A few showers breaking out then more persistent rain will spread up from the south during the afternoon and evening.

Maximum wind: Strengthening south or southeast winds, average speeds increasing 30 to 40mph on the tops with gusts 55mph in the afternoon.

Chance of cloud-free hill tops above 800m: 60%, best in north of area, decreasing 30% during the afternoon.

Low Cloud and visibility: Fairly extensive cloud cover with fog above about 700 to 800m becoming extensive during afternoon. Good visibility beneath the clouds but poor as showers pass by and in more persistent rain later. Higher cloud bases in north of area.

Temperature: **Glens:** Plus 7 Celsius rising to 12 Celsius.
At 800m: Plus 5 Celsius.
Freezing level: Above the tops.
